Important Information for Our Members

At NorthernBridges we contract with a network of providers that will help you reach your goals. Our providers work with us in a cost-effective way and meet our quality standards. Included in this Provider Directory are NorthernBridges' contracted providers. We try to ensure the Provider Directory is up-to-date and accurate. However, because of additions, resignations, and changes in practice arrangements, we cannot guarantee that providers listed in the directory will be available.

For most services, you can choose from the providers in the NorthernBridges' provider network. To choose a provider not in our network, you must talk with your Team and NorthernBridges will consider your request. A new provider might be used when a network provider:

- Does not have the capacity or expertise to meet your need
- Cannot meet your need on a timely basis
- Cannot meet your cultural or language needs
- Is located in geographic locations or buildings that make transportation or physical access an undue hardship to you

Your Team will help you find a provider of your choice, coordinate your care and schedule needed services for you. All services must be approved by your Team before you start receiving them. Also, there are times when you may want to switch providers. Contact your Team if you want to change from one provider to another in the network.

NorthernBridges provides members with access to interpreters and translators through the use of an interactive voice response system. Your Team will arrange interpreter services upon request and when needed where benefits, technical, medical or treatment information related to Family Care services is to be discussed, or other situations where impartiality is critical

For assistance in accessing or scheduling services, or current provider information, contact your Team at their hub location shown on the next page.
